

CYBERSECURITY INTERNSHIP

RISHA GUPTA — INTERNSHIP COMPLETION

A concise record of learning, training, and practical exposure.

DELINED

ONLINE INTERNSHIP

JUNE 22 — JULY 2026

Made with GAMMA

INTERNSHIP COMPLETION

The internship combined cybersecurity learning with practical training work

A four-part review of context, project focus, and next steps.

01 Context

Online internship at Delined.

02 Project

Enterprise risk management training.

03 Takeaways

Cybersecurity learning in a business-risk frame.

04 Reflection

A foundation for continued learning.

01 | Internship context

The organization, online setting, and internship period establish the frame for the work.

01

INTERNSHIP CONTEXT

The internship was completed online at Delinead

The experience took place in an online setting, combining structured learning with practical training work.

MODE

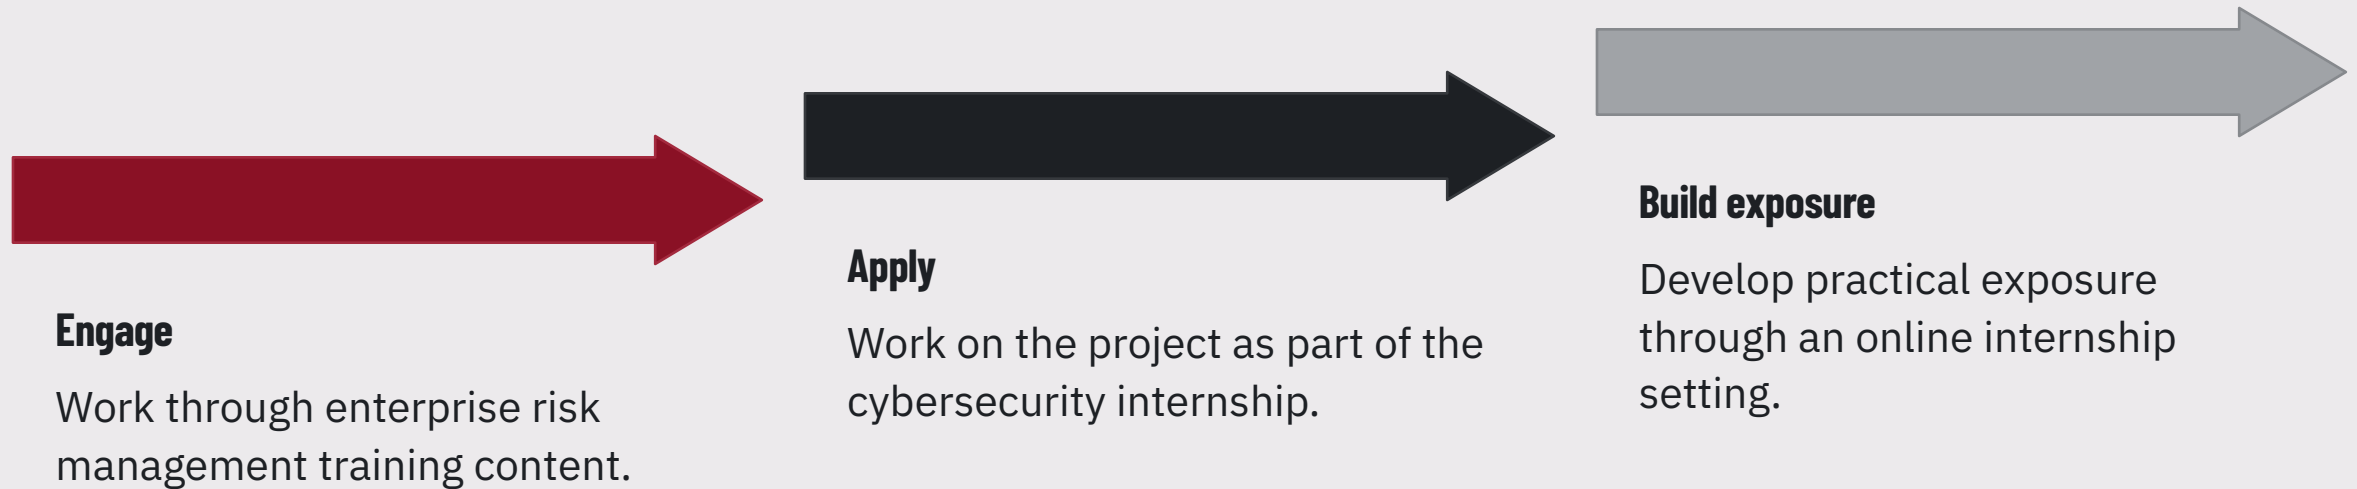

Online

PERIOD

**June 22 to
July 2026**

Exact end date
to be
confirmed.

Enterprise risk management training was the central project focus

A project focus linking structured training with practical experience.

The project connected cybersecurity thinking with organizational risk

Enterprise risk management provided a broader frame for understanding how cybersecurity learning relates to organizational exposure.

Cybersecurity learning becomes more practical when its organizational context is visible.

Risk perspective

Enterprise risk management offers a structured way to think about organizational exposure.

Training focus

The project centered on learning and working with risk management training material.

Professional context

The experience placed cybersecurity learning inside a broader business-risk frame.

EXPERIENCE TAKEAWAY

The experience created a foundation for continued cybersecurity learning

One focused project and one online work environment now anchor the next stage of learning.
